FACEBOOK FRIENDS

Justin LeClair

Drew Johnson

Greg Guidone

Derrick Xu

Reload

If the user taps the 'reload' button the app should refresh the data shown in the Friend's list from Facebook.

The Facebook Friends list should pull the user's friend list from the Facebook API and display it in a scrollable list view. Tapping a friend cell in this list does not need to do anything.

CODING TASKS

facebook friends

server ping

animation test

SERVER PING

NICE!
144.16ms

Ping

Send an asynchronous POST request to http://ec2-54-243-205-92.compute-1.amazonaws.com/Tests/ping.php

with a parameter "Password" and a value of "EGOT". If successful we will return a response and you should display how long it took

ANIMATION

Animate the App Partner icon. Make it spin around 360 degrees when the spin button is pressed. Allow it to be dragged around the screen by touching and dragging.

BONUS POINTS FOR CREATIVITY
